"Rediscover Catholicism"

(The FREE book given you by our KC's.)

"Catholicism is more than a handful of priests who don't know what it means to be a priest. There are 1.2 billion Catholics in the world. There are sixty-seven million Catholics in America—that's at least fifteen million more people than it takes to elect an American president. And every single day the Catholic Church feeds, houses, and clothes more people, takes care of more sick people, visits more prisoners, and educates more people than any other institution on the face of the earth could ever hope to."

"Consider this question: When Jesus was alive, where were the sick people? Were they in hospitals? Of course not; there were not hospitals at the time of Christ. The sick were huddled at the side of the road and on the outskirts of town, and that is where Jesus cured them. They had been abandoned by family and friends who were afraid that they would also become sick."

"The very essence of health care and caring for the sick emerged through the Church, through the religious orders, in direct response to the value and dignity that the Gospel assigns to each and every human life."
